

VIREN CHAUHAN
Game Design & Applied AI Student | Software Development | Game Development | Interactive Systems
(404) 574-0556 • chauhan.viren08@gmail.com • virenchauhan.com • Atlanta, GA, United States

Game Design student at Savannah College of Art and Design with a minor in Applied AI, focused on software engineering, gameplay systems, interactive web experiences, and AI-assisted development. Experienced with Unity, Unreal Engine, C#, Python, JavaScript, HTML/CSS, GitHub, and front-end project deployment. Built playable games, interactive systems, and a live portfolio website. Interested in software engineering, game technology, web development, AI tools, and interactive user experiences.

Leadership & Education

Sept'25-June'26 SCAD Student Athlete Advisory Committee | Chief Finance Officer

Managed finance-related responsibilities and supported student-athlete initiatives, event planning, and campus communication.

Savannah College of Art and Design | B.F.A. Game Design, Minor in Applied AI | Expected May'2028 | Atlanta, GA

Student-Athlete, SCAD Cross Country and Track; relevant coursework includes Programming, Game Design, Applied AI, UX/UI, Unity, and Unreal Engine.

Experience

- **SCADpro x Atlanta United FC | UX/UI Lead | 2026**
Led UX/UI direction for a client collaboration focused on digital and experiential fan engagement while following NDA confidentiality requirements.
Defined interaction flows, interface standards, and user experience guidelines for accessible and consistent brand touchpoints.
 - **FIFA World Cup 2026 | Anti-Doping Team Volunteer | 2026**
Selected for the FIFA World Cup 2026 Anti-Doping Team, one of only 4 chosen for the role from over 100,000 applications.
Support confidential athlete testing logistics, controlled-area procedures, compliance-focused operations, and detail-sensitive coordination.
 - **FIFA Club World Cup 2025 | Ceremonies and Fan Operations Volunteer | 2025**
Supported ceremonies, guest experience, event flow, wayfinding, and matchday fan operations for a large-scale international sports event.
-

Projects

Playable Portfolio Website | Software Developer | JavaScript, HTML, CSS, GitHub Pages

Designed and deployed a live interactive portfolio website to showcase projects, skills, and experience through a game-inspired interface.

Built project pages, navigation, media sections, and front-end layouts; debugged broken media links, routing issues, and embedded content.

Unity Top-Down Shooter | Game Developer | Unity, C#

Developed a 2D top-down shooter with wave-based enemies, boss fights, scoring, lives, health, power-ups, pause menu, and controller support.

Programmed player controls, enemy spawning, game state logic, difficulty selection, high-score tracking, and gameplay balancing.

Unity Peggle-Style Physics Game | Game Developer | Unity, C#

Built a 2D physics-based ball launcher game with trajectory preview, curved aiming arc, ball count, audio feedback, and win/lose states.

Programmed launch mechanics, collision behavior, UI updates, visual aiming guides, and gameplay progression logic.

Unreal Engine Weather System | Technical Game Designer | Unreal Engine 5, Blueprints, Niagara, PCG

Built an interactive weather system with Blueprint logic, Niagara rain/snow effects, lightning, thunder, camera shake, UI feedback, and state transitions.

Used PCG to scatter environment meshes and reviewed particles, lighting, volumetric clouds, and PCG assets for performance optimization.

Technical Skills

Languages:

- C#, Python, JavaScript, HTML, CSS

Frameworks / Platforms:

- Unity, Unreal Engine, GitHub Pages, GitHub

Game Development:

- Gameplay programming, 2D physics, UI systems, player interaction, wave systems, boss systems, scoring systems, controller input, Blueprint scripting

Web Development:

- Responsive web design, interactive portfolio design, media embedding, front-end debugging, HTML/CSS/JavaScript

AI / Tools:

- Applied AI, prompt engineering, AI-assisted workflows, generative AI tools, creative prototyping

Software / Design Tools:

- Figma, Maya, Substance Painter, Adobe Photoshop, Illustrator, Premiere Pro, After Effects

Professional Skills:

- Problem solving, debugging, collaboration, communication, leadership, and time management
